

INTEGRITY ENTERPRISE

CORPORATE CAPABILITIES & SIGNAGE PRESENTATION

Global leaders in architectural signage, 3M glass films, precise CNC fabrication, laser cutting, and compliant industrial marking systems engineered for ultimate durability and visual impact.

ISO 9001:2015 CERTIFIED • 3M AUTHORIZED APPLICATOR

CREDENTIALS & STANDARDS

Integrity Enterprise is a premier manufacturer of architectural signage, 3M glass films, laser cutting, and industrial labeling systems. From our advanced 10,000 sq ft facility, we engineer precision fabrications designed for extreme environmental durability, serving corporate hubs, industrial parks, and global infrastructure projects across 25+ states.

3M AUTHORIZED APPLICATOR

We use premium 3M substrates, architectural glass films, and engineering-grade retroreflective sheets to build high-durability sign systems backed by material guarantees.

10,000 SQ FT FACILITY

Equipped with state-of-the-art high-speed Eco-solvent printers, precision CNC waterjets, V-carve tooling, and laser cutters for micro-metric profile edge quality.

COMPLIANCE MATRIX

Our signages, pipeline indicators, and labeling sheets are built in strict compliance with ISO quality processes and OSHA safety hazard standard specifications.

NAME PLATES · ACRYLIC NAME PLATE

ACRYLIC NAME PLATE

Premium Acrylic Name Plate Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom Acrylic Name Plates engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

NAME PLATES • BRASS NAME PLATE

BRASS NAME PLATE

Premium Brass Name Plate Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom Brass Name Plates engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

NAME PLATES • GLASS NAME PLATE

GLASS NAME PLATE

Premium Glass Name Plate Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom Glass Name Plates engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

NAME PLATES · INAUGURATION NAME PLATE

INAUGURATION NAME PLATE

Premium Inauguration Name Plate Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom Inauguration Name Plates engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

NAME PLATES • METAL NAME PLATE

METAL NAME PLATE

Premium Metal Name Plate Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom Metal Name Plates engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

NAME PLATES • SS NAME PLATE

SS NAME PLATE

Premium SS Name Plate Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom SS Name Plates engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

SIGNAGE · ACRYLIC SIGNAGE

ACRYLIC SIGNAGE

Premium Acrylic Signage Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom Acrylic Signages engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

SIGNAGE • EXTERNAL SIGNAGE

EXTERNAL SIGNAGE

Industrial-Grade Outdoor Facade & Identity Signage

PRODUCT OVERVIEW

Our External Signages are heavy-duty, weather-resistant structural systems engineered for corporate buildings, architectural facades, and institutional gateways. Built with anodized aluminum, marine-grade stainless steel, and long-life LED backlighting, they represent the peak of durable outdoor visual branding.

TECHNICAL SPECIFICATIONS

Framing Materials: Anodized Aluminum, 304/316 Stainless Steel, ACP

Lighting Type: Optional Premium IP67 Outdoor LED Modules

Weatherproofing: UV Powder-coated, Anti-rust Treatment

Mounting System: Structural Anchors, Foundation bolts

KEY ADVANTAGES

- Marine-grade stainless steel and structural aluminum framing
- UV-resistant, anti-corrosion protective polyurethane coatings
- Anchored steel base mounting engineered to safety codes

SIGNAGE • FRONTFACE LIT CHANNEL LETTER

FRONTFACE LIT CHANNEL LETTER

Premium FrontFace Lit Channel Letter Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom FrontFace Lit Channel Letters engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

SIGNAGE • INTERNAL SIGNAGE

INTERNAL SIGNAGE

Premium Internal Signage Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom Internal Signages engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

SIGNAGE • LANDSCAPE SIGNAGE

LANDSCAPE SIGNAGE

Premium Landscape Signage Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom Landscape Signages engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

SIGNAGE • PARKING SIGNAGE

PARKING SIGNAGE

Premium Parking Signage Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom Parking Signages engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

SIGNAGE • SAFETY SIGNAGE

SAFETY SIGNAGE

Premium Safety Signage Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom Safety Signages engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

SIGNAGE • STAINLESS STEEL LETTER

STAINLESS STEEL LETTER

Architectural Grade Stainless Steel Letter Signage

PRODUCT OVERVIEW

We fabricate architectural-grade Stainless Steel Letters engineered with precision laser cutting and high-end polishing. Available in premium brushed, mirror-polished, or colored finishes, these signs provide a timeless corporate image with unmatched outdoor weathering resistance.

TECHNICAL SPECIFICATIONS

Material Grade: Premium SS 304 or SS 316 Grade

Finish Options: Brushed Satin, Mirror Polished, Rose Gold, Titanium Gold

Fabrication Method: Precision Fiber Laser Cutting & Argon Welding

Mounting Options: Threaded Stud Mount, Spacer Stand-Offs, Flush Mount

KEY ADVANTAGES

- Marine-grade corrosion and rust resistance
- Precision welded seamless returns for premium 3D depth
- Custom thickness options from 1.2mm to 5mm solid face

SIGNAGE • STAINLESS STEEL PROFILE LETTER SIGN

STAINLESS STEEL PROFILE LETTER SIGN

Innovative Profile-Cut Stainless Steel Channel Signs

PRODUCT OVERVIEW

Our Stainless Steel Profile Letter Signs combine high-precision structural metal borders with premium acrylic faces or custom integrated illumination. They offer a luxurious 3D dimensional depth and outstanding structural durability, making them a top-tier choice for executive brand identities and landmark signs.

TECHNICAL SPECIFICATIONS

Face Material: High-transmittance Acrylic, Lexan, or Hollow SS Profile

Side Return: Laser-bent Stainless Steel Channel Profiles

Lighting Options: Frontface Lit, Backlit Halo, Dual Illumination, Non-lit

Power Supply: IP67 Outdoor Grade Meanwell Drivers

KEY ADVANTAGES

- Advanced laser return bending for flawless curves and sharp corners
- Energy-efficient high-luminosity waterproof LED modules
- Sleek profile borders with concealed screw attachments

SIGNAGE • STONE ART SIGNAGE

STONE ART SIGNAGE

Artisanal Natural and Engraved Stone Signage

PRODUCT OVERVIEW

Our Stone Art Signages are crafted from premium natural marble, granite, or slate, carved using high-precision CNC engraving or waterjet cutting. These signs combine raw natural beauty with absolute permanence, making them ideal for grand entrance landmarks, institutional plaques, and luxury real estate.

TECHNICAL SPECIFICATIONS

Stone Varieties: Premium Granite, Italian Marble, Slate, Sandstone

Cutting Method: High-Pressure CNC Waterjet & Artisanal V-Carving

Inlay Fill: Weatherproof Epoxies, Gold/Silver Leafing, Liquid Brass

Durability: Absolute Permanent Lifetime Guarantee

KEY ADVANTAGES

- Hand-finished deeply engraved lettering and artwork
- Resistant to extreme thermal expansion and weathering
- Available in rustic natural-edge or high-polished executive borders

SIGNAGE • TERRACE SIGNAGE

TERRACE SIGNAGE

High-Visibility Rooftop and Skyline Signage

PRODUCT OVERVIEW

Our Terrace Signages are heavy-duty, structural-scale rooftop brandings designed to withstand high-altitude wind loads while delivering maximum skyline visibility. Engineered with structural steel trusses, premium aluminum or SS letter forms, and high-lumen lighting systems, they make your brand stand out for miles.

TECHNICAL SPECIFICATIONS

Structural Support: Heavy Galvanized Steel Wind-Truss System

Wind-Load Compliance: Certified up to 150 km/h wind speeds

Lighting Depth: Ultra-bright double-row LED modules

Shell Metal: Heavy-duty Aluminum or Welded SS 304

KEY ADVANTAGES

- Rigorously engineered structural safety factor calculations
- Automated dusk-to-dawn astronomical timer controls
- Weatherproof anti-rust epoxy structural primer finish

SIGNAGE • WALLPOLE MOUNT SIGNAGE

WALLPOLE MOUNT SIGNAGE

Durable Wall and Pole-Mounted Projecting Signs

PRODUCT OVERVIEW

Our Wallpole Mount Signages are highly functional, dual-sided projecting signs engineered for street-level pedestrian visibility. Mounted on custom decorative steel brackets, these circular, square, or custom-profile lightboxes provide outstanding directional and business identity display.

TECHNICAL SPECIFICATIONS

Mounting Brackets: Wrought Iron, Heavy Steel, or Die-Cast Aluminum

Bracket Type: Projecting Cantilever, Pole Clamped, Flag Mount

Panel Options: Vacuum-Formed Acrylic, ACP, Die-cut Metal

Illumination: Dual-sided Uniform LED backlight

KEY ADVANTAGES

- Dual-sided display for maximum bi-directional visibility
- Reinforced base plates to eliminate bracket sagging
- Weatherproof silicone edge seals to prevent water ingress

SIGNAGE • WOODEN SIGNAGE

WOODEN SIGNAGE

Premium Carved and Engraved Natural Wood Signs

PRODUCT OVERVIEW

Our Wooden Signages deliver a warm, premium, and organic aesthetic. Precision carved on solid Teak, Sheesham, or Oak using 3D CNC routing and hand-finished with weather-resistant polyurethane coatings, these signs are ideal for wellness spaces, premium resorts, boutiques, and high-end interiors.

TECHNICAL SPECIFICATIONS

Wood Options: Solid Burma Teak, Indian Rosewood (Sheesham), White Oak

Finish Coats: Premium Yacht-grade Polyurethane, Outdoor Oils

Carving Styles: 3D CNC Raised Lettering, V-groove Engraving

Letter Inlays: Liquid Metal, Enamels, Brushed SS, Acrylic

KEY ADVANTAGES

- Kiln-dried seasoned wood to prevent warping and cracking
- Beautiful hand-sanded organic grain texture highlighted
- Advanced UV-shield topcoats to resist sun-bleaching

PIPE MARKING • ANSI/ASME A13.1 STANDARD PIPE MARKING

ANSI/ASME A13.1 STANDARD PIPE MARKING

Premium ANSI/ASME A13.1 Standard Pipe Marking Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom ANSI/ASME A13.1 Standard Pipe Markings engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

PIPE MARKING • INDUSTRIAL PIPE MARKING

INDUSTRIAL PIPE MARKING

Premium Industrial Pipe Marking Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom Industrial Pipe Markings engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

PIPE MARKING • OSHA COMPLIANT PIPE MARKING

OSHA COMPLIANT PIPE MARKING

Premium OSHA Compliant Pipe Marking Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom OSHA Compliant Pipe Markings engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

LABELS / FILMS / PANELS • CNC CUT ACP WITH ACRYLIC

CNC CUT ACP WITH ACRYLIC

Premium CNC Cut ACP with Acrylic Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom CNC Cut ACP with Acrylics engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

LABELS / FILMS / PANELS • GLASS FILM

GLASS FILM

Premium Glass Film Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom Glass Films engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

LABELS / FILMS / PANELS • POLYCARBONATE LABEL PC LABEL

POLYCARBONATE LABEL PC LABEL

Premium Polycarbonate Label PC Label Solutions

PRODUCT OVERVIEW

We design and fabricate premium, custom Polycarbonate Label PC Labels engineered for durability, structural integrity, and architectural-grade aesthetics. Ideal for industrial facilities, corporate headquarters, and high-visibility environments.

TECHNICAL SPECIFICATIONS

Material Options: 3M Premium Film, Acrylic, Stainless Steel, Aluminum

Durability: Indoor & Outdoor (UV Resistant)

Compliance: ISO & OSHA Standards

Customization: Fully Customizable Sizes & Graphics

KEY ADVANTAGES

- High-resolution professional grade branding
- Ultra-durable weather and fade-resistant finish
- Precise CNC and laser cutting for seamless edges

THANK *YOU*
